Athens College for Young Women

History Athens College was projected in October, 1842, at a session of the Tennessee Annual Conference held in Athens. In 1843 the legislature of Alabama granted a charter incorporating the Female Institute of the Tennessee Annual Conference. The character and dignity of the undertaking may be estimated by the Board of Trustees named in the act of incorporation, viz.: A. L. P. Green, Thomas Maddin, Ambrose F. Driskill, Joshua Bucher, Frederick G. Ferguson, Daniel Coleman, Ira E. Hobbs, Benjamin W. Maclin, Thomas Bass, James F. Sowell, Thomas Stith Malone, James C. Malone, William Richardson, George S. Houston, Richard W. Vassar, Jonathan McDonald, James Craig. The lofty aims of the institution were further shown in the election of the learned and honored Rev. R. H. Rivers, D.D., author of *Rivers' Mental and Moral Philosophy*, as its first President.

In 1870 the North Alabama Conference was organized. Athens, with all the northern part of the State of Alabama, came into the boundaries of that conference. All church property in that territory formerly held by the Tennessee Conference was also transferred to the North Alabama Conference. In 1872 the charter was amended, name being changed to Athens Female Institute. In 1889 the charter was amended again, and the name changed to Athens Female College. The name has since been corrected to Athens College for Young Women.

Location The college is situated in the town of Athens, and its location could not be improved upon for natural beauty and surroundings conducive to the best advantages for study. Athens has been noted for its high educational tone since ante bellum days. This air of refinement, with that of modern progressive ideals, makes Athens desirable as an educational center. It is situated near the foothills of the Cumberland range, having some nine hundred feet of elevation. The main line of the Louisville & Nashville Railroad accommodates the town with twelve north and south bound passenger trains a day, which make

convenient connection at Decatur, fourteen miles south of Athens, with east and west bound trains. The campus consists of twenty acres of rolling ground, amply beautified with magnificent trees, shrubbery and convenient walks. It is provided with tennis and ball courts.

***Founders'
Hall Erected
1843***

This building presents a front of some 140 feet, supported by magnificent Ionic columns. Three wings, with ivy-clad walls, extend to a depth of about 160 feet. In Founders' Hall centers the life of the college, as, in addition to students' rooms, it contains the administrative offices, reception rooms, library, dining hall, laboratories, and classrooms.

***Florence
Brown Hall***

This dormitory is of Colonial architecture, with Ionic columns across the north front, and is equipped with all modern conveniences. It was built as a memorial to Miss Sarah Florence Brown, as an appreciation of her loyal service to the college. The dormitory is reserved for the use of Juniors and Seniors.

Music Hall

The Music Hall was made possible through the generosity of the local citizenship, and of the North Alabama Conference. It stands as a monument to the spirit of real culture which permeates the atmosphere of the town. The building accommodates the School of Fine Arts. It is conveniently arranged with studios and practice rooms, and contains a large auditorium, with a seating capacity of about seven hundred, perfectly equipped in every way, and a stage amply able to accommodate all college and visiting entertainments. The hall is easily accessible to the other buildings.

Heating Plant

The heating plant is housed in a neat brick building, 40x60 feet. A battery of four boilers supplies sufficient steam pressure to heat all buildings on the campus, and to give an ample supply of hot water. This plant is considered one of the best constructed in this part of the State.

Lectures and Concerts It is the custom of the college to invite from time to time distinguished speakers, lecturers and artists to appear before the student body. Members of the faculty also appear in concert and lectures. Dr. S. Parkes Cadman, Sir Francis Nielson, Dr. Leland Powers and Dr. Newell Dwight Hillis were among those invited to speak in the college during the present session.

Admission of Students All correspondence in reference to admission should be addressed to the President.

For Academy Entrance Requirements, see page 56.

Applicants for admission to the college should be at least sixteen years of age, and must present testimonials of good character from responsible persons. No student is admitted to the Freshman class of the college who has not completed a four year high school course or its equivalent. A blank for a statement of the applicant's preparatory work is furnished in the back of the catalogue, or can be secured by writing to the President. Whether entrance to the college or academy is sought, this blank should be filled out and mailed to the President before matriculation.

Admission credits are based upon a system of units. A unit means a subject of study pursued for one year in a high school, with recitations five times a week, forty to sixty minutes each, or the equivalent.

Students are admitted (1) as Freshmen, (2) as conditioned Freshmen, (3) to advanced classes, (4) as Special students, and (5) as students of School of Music and Arts only.

1. Freshmen must show preparation by certificate from accredited high schools or by examination on 14 units of the following subjects:

English	3	units	One year in Mechanical	
Mathematics	3	units	Drawing	1 unit
Latin	4	units	One year in Freehand	
History	5	units	Drawing	1 unit
Science	5½	units	Two years in Domestic	
French	2	units	Science	1 unit
German	2	units	Three years in Music.....	1 unit
Spanish	2	units	One year in Agriculture....	1 unit
Greek	3	units		

Of these 14 units, $7\frac{1}{2}$ are prescribed, the remaining $6\frac{1}{2}$ elective. The prescribed units are as follows:

English	3	units	Mathematics	$2\frac{1}{2}$	units
			Foreign languages	2	units
			[Either 2 in Latin or 2 in German, French or Greek. 1 in Latin and 1 in another language will not be accepted.]		

2. Students who can not enter as full Freshmen, may enter as conditioned Freshmen, on 12 units, provided 3 of these units are in English, $2\frac{1}{2}$ in Mathematics. The two conditions must be removed by the end of the Sophomore year.

3. Students showing credits for advanced standing from recognized colleges may be admitted to corresponding advanced classes without examination.

4. Students of 20 years of age, or above, may be admitted as Special Students, provided they can offer 5 units, 3 of which must be in English and 1 in History. Such students must elect at least 9 hours of class work per week.

For requirements of students desiring entrance to School of Music and Fine Arts only, see page 44.

Unit Values of Entrance Subjects

ENGLISH

If this subject is pursued a whole year under a competent instructor, with the aid of field excursions and laboratory practice, a full unit of credit will be allowed.

Physiology—The requirements in Physiology can be met by the study for a full half-year of Overton's *Physiology* or an equivalent book. (One-half unit.)

Botany—The least amount of work in Botany for which entrance credit may be given is the equivalent of five recitations weekly for a half-year. (Additional credit may be allowed if the subject is pursued for a longer time. (One-half unit.)

Physics—The entrance requirement in Physics includes an amount represented by Carhart and Chute's *High School Physics*. (One unit.)

Agriculture—If studied altogether in the high school, with bulletins of the U. S. Department of Agriculture for a half-year, with five recitations weekly, credit will be allowed. (One-half unit.)

MUSIC

Entrance credit will be given for Music studied under a competent instructor. To secure this credit the applicant must present a certificate from the music teacher indicating the amount in hours and the character of the work done. In every case the music teacher must be recommended by the principal of the accredited school with which she is affiliated, and the certificate granted by her to the pupil must be validated by the principal. (One-half to one unit.)

Degrees and Certificates The degrees offered are Bachelor of Arts and Bachelor of Science. Every candidate for the A.B. or the B.S. degree must complete, before graduation, sixty-six session hours of college work. The session hour is one hour appointment per week for a session of thirty-six weeks. Of these sixty-six hours, forty-eight are prescribed, the remaining eighteen elective. The prescribed hours are as follows:

FOR A.B. DEGREE.		FOR B.S. DEGREE.	
English	12 hours	English	12 hours
Latin	6 hours	Mathematics	7 hours
Mathematics	4 hours	German, French or Greek	6 hours

No student is admitted to college or academy who does not do at least nine hours of classroom work weekly. See Conditions of Entrance for students of School of Music only. The degrees of Bachelor of Arts and Bachelor of Science are conferred upon those who complete the work prescribed for these degrees.

Certificates of Proficiency are given to students completing the work in any one of the following schools: Vocal Music, Piano Music, Organ, Art, Violin and Home Economics. *No certificate is awarded in any school unless the student has completed work in English equivalent to that of the Sophomore Course.*

THE TEACHER'S CERTIFICATE

In accordance with the laws enacted by the Alabama Legislature in 1915, upon the recommendation of the president of the institution, first grade teachers' certificates, without further examination, are issued to graduates of the regular collegiate course, who have successfully passed a minimum of courses in pedagogical instruction, designated and approved by the State Board of Examiners.

The requirements for the Teachers' Certificate of applicant on graduating in the year 1918 or later, shall consist of a minimum of nine (9) session hours of professional training as a part of the collegiate course.

Examinations Examination of new students applying for entrance to the Freshman class or for advanced standing, who do not present certificates from accredited high schools or colleges, will be held on Wednesday and Thursday, September 18 and 19, 1918. Students who desire to take these examinations should report for classification on Tuesday.

Examinations are held at the close of each term, for the purpose of keeping accurate records of the student's work. Absence from these examinations prevents a student from receiving credit for that course in which the failure to take an examination occurs. Upon the presentation of a certificate from a physician stating illness as the cause of inattendance, and upon the payment of a fee of \$1.00 for each examination taken out of schedule time, a student will be given a special examination. Receipt showing the payment of the fee must accompany the request for each special examination.

To secure credit for a subject, an average of 70% must be made on the entire work in that subject.

No degree student will be permitted to take less than fifteen or more than eighteen hours of class work. Advanced work in Music and Art may count toward a degree.

At the beginning of the Junior year, every student-candidate for a degree shall select a leading subject to be known as her major study; the work in the major shall not be less than 12 hours, nor more than 18 hours.

Science

ASTRONOMY

1. ASTRONOMY.

This course treats the subject descriptively with the purpose of giving general information. The principles underlying the science of the heavenly bodies, methods of determining time, motions of the planets, etc., are thoroughly discussed. Elective for students who have had Mathematics 1 and Physics 1. Elective.

Texts: Elements of Astronomy by Young; other reference books.

Two hours throughout the year.

BIOLOGY

1. (a) GENERAL BOTANY.

This course is devoted to the fundamental relationships of living things, and to the structure, physiology, and ecology of plants. Three hours of laboratory work are required weekly. The students are provided with materials for individual investigation and study. Required of Scientific students.

Three hours first half year.

Text: Coulter's Plants.

(b) GENERAL ZOOLOGY.

This course is similar to Course 1 in its scope and methods. A study of the types from the different Phyla of the animal kingdom, the laboratory work consisting of individual dissection. Required of Scientific students.

Three hours second half year.

Text: Animals, by Jordan, Kellogg and Heath.

2. HUMAN PHYSIOLOGY AND PERSONAL HYGIENE.

A course in the general principles, the structure and physiological activities of the human body. Special emphasis is placed upon the structure of the tissues of the body and their nourishment and destruction. Elective.

Three hours half year, first or second.

CHEMISTRY

1. GENERAL CHEMISTRY.

The first half year is given to the non-metals, the metals being studied from the standpoint of the Periodic Law. Close attention is given to the fundamental principles, the application of chemistry to the industrial arts and to laboratory work. Required of Scientific students.

2. QUALITATIVE ANALYSIS.

A study of the commoner compounds of the metals, alloys, their solubility. Analysis in solution and by flame. One hour recitation. Nine hours laboratory work. Course 1 is prerequisite. Required of Scientific students.

3. ORGANIC CHEMISTRY.

A systematic detailed study of the principal series of hydrocarbons, with practical laboratory work. Elective.

Two hours throughout the year.

4. HOUSEHOLD AND ORGANIC CHEMISTRY.

This course includes tests in the composition and quality of foods with reference to their nutritive value, chemistry of dyestuffs, house cleaning materials, etc. See Department of Home Economics. Required of Home Economics students.

Three hours, half year.

GEOLOGY

1. GENERAL GEOLOGY.

A study of the natural conditions of our own country in the various agencies which have caused the different physiographic structures. An orderly account of the development of the inhabitants of the earth. Elective.

Texts: Chamberlain & Salisbury Geology; other reference books.

Two hours throughout the year.

Voice

The study of Voice Culture should not be limited to those endowed by Nature with a good voice. The pupil with weak lungs, hollow chest or ill health; the pupil whose ear is not true, whose speaking voice is weak or harsh—these should take Voice Culture, as such conditions may be improved and often entirely corrected. A skilled teacher will at once perceive the presence of any defect in nose or throat, as such defects affect the voice, altering the natural quality. Voice Culture consists in placement, development, and interpretation.

COURSE OF STUDY

FIRST YEAR—Art of respiration. Exercises for the development of lungs and diaphragm, and simple exercises for placing and building the voice. Elementary Studies by Sieber, Concone, and others for articulation, phrasing, etc. Easy songs.

SECOND YEAR—Placement and development continued. Daily exercises. Vocalises by Sieber, Bordogni, and Concone. Moderately difficult songs.

THIRD YEAR—Exercises for control of breath and for strengthening the voice. A graded series of vocal studies selected from the celebrated works of Bordese, Bordogni, Marchesi, and others. Book I, prepared by Max Spicker. Songs of Schubert, Schumann, Franz, Brahms, Mendelssohn, Rubinstein, and American composers, including MacDowell and Nevin.

FOURTH YEAR—Studies in bravura and bel canto—such training as would conduce to fuller development in all branches of artistic song. Book II, by Max Spicker. Selections from Oratorio and Opera.

A diploma will be given those completing the above Course with one year of Harmony and one year of Musical History, Sight-singing and Ear-drill, provided they have satisfied the literary requirements.

CHORUS AND ORCHESTRA

To the chorus class will be given sight-singing and vocal exercises for the strengthening, building up and blending of voices. Interesting two-part, three-part and four-part choruses will be studied throughout the year. Sacred and secular cantatas and operettas will be a part of this interesting course.

All students who play any of the following instruments—violin, cornet, clarinet, viola, cello and double bass—are invited to join the college orchestra.

Organ

PREPARATORY

Ritter's Organ School; Schneider's Pedal Studies (Book I, II); easy pieces by European and American composers; Extempore Playing begun; Accompaniments for Congregational Singing; Bach's Preludes and Fugues (Vols. I, II); H. R. Shelly's Modern Organist.

JUNIOR

SENIOR

Thomas' Etudes; Bach's Masterpieces; Eddy, Church and Concert Organist; concert pieces from Buck, Wagner, Schumann, Guilman, Flagler; Sonatas of Reinberger, Lemens, Ritter.

Violin**COURSE OF STUDY**

FIRST YEAR—Study of the elementary principles of music; practical study of the instrument, simple exercises in bowing; major scale, one octave; Schubert's Book I, and Wohlfahrt's Book I. Easy pieces. Ensemble.

SECOND YEAR—More extended study of scales in position; Dancla's School of Velocity; Wohlfahrt's Book I and II; third position; pieces by standard composers, such as Simonetti, Ambrosio, Alard and Dancla. Ensemble.

THIRD YEAR—Dancla's Etudes, Opus 68; Ritter's scale and chord exercises; Dancla's School of Velocity; Sevcik's School of Bowing; Mazas' Etudes, Op. 36. More difficult pieces by such composers as Hauser, Spohr, Raff, Bohm and Ernst.

FOURTH YEAR—Edith L. Winn's Daily Exercises and three octave scales; Mazas' Etudes; Kreutzer's Forty Studies; Rhode's Caprices, concertos from Vieuxtemps, De Beriot and others. Ensemble.

A diploma will be given those completing the above course in Violin who have had one year's study of History of Music and one year of Harmony, together with the prescribed literary requirements.

The average violin student should be able to play easy melodies by the end of the first month of study, and should be playing in the orchestra by the end of the second month.

Art Department

Art is no longer for the talented few, it is today a recognized force in every phase of life. This is not the day of superficial accomplishment, such as the painting of a few pretty pictures, but one that applies art to the everyday needs of life. No copy work is allowed, for originality is the keynote to this department.

COURSE OF STUDY.

Design and the Theory and Harmony of Color are the foundations of the course. The three main heads are:

(1) Costume Design, which stresses the teaching of correctness in individual dressing.

(2) Interior Decoration. Although the period history of furniture is studied, practical application to one's own surroundings is emphasized.

(3) Commercial Advertising — worked out through posters. Never before has the demand for this been greater.

The following are also offered: Illustration, pen and ink drawing, charcoal, pencil technique, water color, the direct and floated method, study of compositions in value and hue contrasts, pastel and oil painting.

For prospective teachers, a Teachers' Training Class has been organized. This course offers a splendid foundation for Public School Art. This class meets two hours each week.

CRAFTS.

Before taking any craft a student must have some knowledge of design.

Leather carving and tooling are offered, in which the making of purses, belts, or any other suitable article can be accomplished.

Modeling, which includes relief work, bowls, candle holders, or any object suitable in this line, animals, and figures for fairy story illustrations, in connection with the study of stage sets.

From "Permodella", many articles can be made, such as buttons, hat pins and beads.

The painting of designs in color on glass and tinware.

ART HISTORY.

An hour a week is devoted to this study. Although ancient art is studied, modern art and artists are given first choice. In this the period history of furniture is given a place. No textbook required.

After having three years instruction in this department, and after having completed a course in History of Art, students whose work justifies it, and who have the college requirements in English, will receive a certificate. After receiving a certificate, a student may qualify for a diploma.

Department of Expression

COURSE OF STUDY

The study of Expression is primarily a course in personal culture and embraces not only the training of the body for grace, and of the voice for musical quality and power, but a development of mental and moral poise. The aim is not to make elocutionists, but to evolve rounded, cultured women, with literary appreciation, and an ability to give with directness, simplicity and sincerity their own thought and that of others. Special attention is given to the development of a beautiful and adequate speaking voice, by careful tone study, freedom for the organs of speech, placement, and an analytic study of pronunciation and enunciation. An important place is given to the study of the drama because of its eminent value as a means of personal culture; because it cultivates the imagination, which is the mother of all art; because it broadens the sympathy and nurtures that sense of beauty which refines the character.

1. Evolution of Expression, Vol. 1, 2, breath control, vocal technique, physical culture, platform deportment, pantomime, repertory.

2. Evolution of Expression, Vol. 3, 4, vocal technique, physical culture, literary interpretation, prose and poetry, repertory, dramatics, story telling.

3. Practical public speaking, vocal technique (advanced), physical culture, literary analysis, repertory, interpretation of Shakespearian plays, character study (Dickens).

4. Selections from masters of prose, classic and modern, expressive study of epic, lyric and dramatic poetry, vocal technique (advanced), dramatics; study of modern plays, repertory, program to be selected from this material, one and a fourth to one and a half hours in length.

Students appear in studio and public recitals from time to time throughout their course. Each student who has satisfactorily completed the four years' course of study, together with the prescribed literary requirements, and prepares an evening's program which she presents alone, or jointly with another Senior, will be granted a diploma of graduation. All Seniors have two private

lessons and three or more lessons per week; all others have two private lessons and three class lessons, besides dramatics.

Each candidate for graduation from the School of Expression must complete satisfactorily two years of college English, two years of college History, and one course in Psychology, in addition to an accredited high school course.

Department of Physical Training

Each student residing in the college is required to spend two periods per week in Educational Gymnastics under the direction of the instructor, unless expressly forbidden by the college physician upon the grounds that she is not physically fit for vigorous exercise.

The purpose of regular systematic exercise is to develop the body into symmetrical form, promoting health and beauty; to enable it to respond readily and gracefully to all of the many demands made upon it; to create endurance and to correct weakness and bad posture.

1. Breathing exercises, corrective gymnastics to aid function, develop chests, muscles, and muscular control; dumb-bell, wand and Indian club work; tactics, floor gymnastics, vaulting, jumping and running. (Swedish-American system of gymnastics is taught.)

2. Games, rhythmic exercises, harmonizing movements, and Emerson System of Expressive Physical Culture.

3. Swimming, field athletics—basket-ball (closely supervised), tennis, track work, passball games, etc.

Student Organizations

Student Government Association A most excellent system of student government has been in operation in Athens College for Young Women for several years, forming a real democracy among the girls themselves, and at the same time securing the highest character of discipline. In the consciousness of responsibility and personal pride that every young woman is on her honor, the student body increases in womanliness and gives an atmosphere of dignity and strength to the college.

Young Woman's Christian Association The Young Woman's Christian Association is a vital factor in the religious life of the college. Under its direction daily prayer services are conducted, weekly meetings for prayer are held, and religious instruction is given through the mission study, teachers' training and Volunteer Movement. The work of the Y. W. C. A. begins with the welcoming of the new students at the opening of the session, and throughout the year this organization helps to create a spirit of friendliness and good fellowship in the entire student body. It promotes a wholesome and intelligent interest in all social and moral problems. The association is part of the Central Division of the Young Woman's Christian Association, and is affiliated with the National Board of America. Delegates are sent to the State conventions and to the Southern General Assembly at Blue Ridge, N. C. Through the association relationships the students are brought in touch with larger student movements of the South, the Nation and the World.

Student Volunteer Band This band is composed of a group of earnest Young women who have pledged themselves for work in the mission fields.

Epworth League The Epworth League seeks to develop Christian leadership in order that students upon returning home may helpfully enter into the activities of their home churches. The motto, "All For Christ," represents a high standard of Christian character toward which the members aim.

**Literary
Societies**

The students are organized into two college and two academy literary societies. The object of these societies is to foster an interest in letters, to develop the power of expression by debate and impromptu speaking, and to acquaint the students with the principles of parliamentary usage. These societies meet on Monday afternoon of each week.

**Athletic
Association**

Almost all of the students are members of the College Athletic Association, which is organized to foster the spirit of athletics as well as general "College Spirit." There is great interest in out-of-door sports, and the Thanksgiving game, under the auspices of this association, creates much spirit and enthusiasm among the friends of the two teams. It is the plan of the organization to arrange games with other schools, and in every way to promote clean, healthful sport. The celebration of May Day with field and athletic sports and a Play Festival, is an annual event that is of much interest to the town and school. At this time the classes compete for the different prizes and cups.

General Information

General Information

Scholarships There are thirteen scholarships awarded annually—one for each of the thirteen districts of the North Alabama Conference—covering tuition in collegiate classes, worth \$70.00 each. They are in the hands of the presiding elders, and applicants must apply to the presiding elder of their district. The award will be based upon the merit and need of aid of applicant. The district scholarships can not be awarded to applicants who are able to pay tuition. There are several self-help scholarships, open to young women who have finished high school, and who wish to pursue college courses, but are unable to meet all of their expenses. The Birmingham Chapter of the Athens College Alumnae have established at Athens College for Young Women the Annie Bradley McCoy Scholarship. This scholarship is open to deserving students from Birmingham, and covers board, laundry and tuition. It is worth \$280.00.

Important Regulations All students by act of matriculation place themselves under all regulations of the institution. Therefore it is imperative that parents decline to sanction in their daughters any violation of the rules.

Parents are requested not to ask permission for their daughters to make week-end, or other visits, to friends outside the college. If a student's absence from the college is necessary, direct application must be made to the President, and an understanding had with him, at least one week before the time for student's going. In such cases the decision should be left to the President, as such visits are always disorganizing to the student's work. It not only impairs the scholarship, but induces a restlessness of mind which is not conducive to study, and imposes unnecessary trouble upon the faculty and in many instances demoralizes other pupils.

Students are requested to be on hand at the opening of chapel, Thursday morning, September 19th. Two points will be deducted from all courses for each day's tardiness.

Students who wish to have a friend or relative entertained must first consult with the matron. Students will not be permitted to

lodge guests in their rooms. Any student who arranges to have a guest must pay board at the rate of \$1.00 for each day.

The health record for the year has been remarkable. The most rigid sanitary conditions are maintained in the school. An experienced graduate nurse is in charge of the infirmary. In case of illness the patient could not receive better attention in a hospital. In cases of protracted illness the patrons will be charged with the actual amount of expense incurred by the college. Proper attention to a well balanced diet and regular habits enables the student body to gain in health while they are in attendance at the school. In order that this high standard of health may be maintained parents are urged to coöperate with the administration by refraining from sending boxes of eatables. One of the greatest sources of poor health and ineffective work is irregularity in eating.

Upon entering the school the girls become members of the President's family. Every advantage of a well ordered, Christian home is secured for them. Teachers and pupils sit at the same table, share the same pleasures, and come in touch with one another in all phases of life.

Each boarder furnishes her own toilet articles, towel, table napkins, pillow, pillowcases, sheets, blankets, bedspreads, all marked in her own name. She should also have a teaspoon and tumbler, umbrella, overshoes and raincoat.

Damage or breakage to furniture beyond ordinary wear will be charged to the inmates of rooms where damage is done.

Costly jewelry and costly clothing should not be brought to college. The outfit of a college girl should be simple. Valuables must not be left in bedrooms.

It is positively harmful for students to have large amounts of spending money, or to have the privilege of making accounts. The latter is prohibited by the college.

Scholastic Year

The next scholastic year will open on Thursday, September 19, 1918, and close May 27, 1919.

For convenience in making payments, the school year is divided into two financial sessions, the first beginning on September 19, 1918, and the second beginning on January 30, 1919.

Payment for the first session will be required upon entrance, and payment for the second session on January 30, 1919.

We can not do a credit business without impairing the efficiency of the school.

Where two or more boarding students come from the same family, ten per cent discount will be made from the regular charges for board.

The medical fee includes physician's attendance and the attention of a graduate nurse in cases of minor sickness. In cases of serious illness expense must be borne by patrons. If parents will bear in mind that a single visit from the physician costs \$2 they will see how reasonable is this small fee.

Daughters of Methodist ministers in the traveling connection are charged \$140 for the school year for all expenses in the Boarding Department, and to them literary tuition is free. They must, however, pay the medical fee, library fee and laundry additional.

Books, stationery, art materials and sheet music are furnished at publishers' retail prices. These must be paid for in cash. Second hand books can be secured by many students at half price.

No honors, awards or diplomas will be conferred until all expenses are satisfactorily arranged.

When, on account of protracted sickness or providential causes, pupils are withdrawn, money will be refunded for pro rata amount on board, but no refund will be made on tuition. No deductions will be made for temporary absence for the last six weeks of either term, including withdrawals at Christmas. The time assigned for holidays is not included in the regular charges.

Pupils who enter any of the special departments are expected to continue to the close of the school year. No deduction will be made unless the withdrawal be for providential reasons.

Pupils who expect to drop out before the close of the school year are not desired.

Registration fee, payable at time of registration, to be credited on board and tuition, \$5.00.

STATEMENT OF PREPARATORY WORK

The following statement should be complete and detailed, showing all the studies pursued at the high school from which the applicant comes, the time devoted to each study in weeks and hours per week, the text-books used, and the scholarship marks or grades received. If the applicant has attended other high schools or academics than the one from which she applies, she should state separately the studies completed in such institution. Laboratory notebooks should accompany the statement, in case the applicant wishes credit for work in any of the sciences.

Before this statement can be finally accepted, it must be indorsed by the school authorities. To avoid delay, however, the applicant may forward an unofficial copy of this statement to Athens College for Young Women, for provisional consideration, retaining the original for the purpose of procuring the necessary indorsement.

Certificates from a high school, or academy, or preparatory department of a college, are not accepted in lieu of entrance examinations unless the school in question has been duly examined and accredited by the Alabama Association of Colleges or by some other college or university at which the entrance requirements are equivalent to those of Athens College for Young Women. The Committee on Admission, acting on behalf of the faculty, is empowered to reject the credentials of any applicant in whole or in part, and to require the usual examination in any or all of the subjects required for admission.
